

Hideaway™ HSA 400

Tilt-Up HSA - Hideaway Surface Access Enclosure

FEATURES

- Easy access to connectors and controls
- Durable pneumatic movement and mechanical latching mechanism
- Compact size with rectangular bezel
- Top surface available in black anodized or brushed aluminum finishes
- Brushed brass and polished aluminum finishes available by special order, requires 8-10 week lead time
- Opening for four single-space AAP - Architectural Adapter Plates
- Two CAT 6 RJ-45 network/data/phone connectors
- One unswitched AC outlet
- Includes RJ-45 connection kit
- International models available
- UL/CUL listed and CE compliant
- Installation routing template available upon request at no charge

DESCRIPTION

The Extron **Hideaway HSA 400** is a tilt-up, architectural solution for inconspicuous computer-video interface connector access and control. The Hideaway HSA 400 enclosure is designed for easy mounting into virtually any table surface. The durable and reliable enclosure is very compact, which keeps installation time and effort at a minimum. Once installed, the HSA 400 fits nearly flush with the tabletop, storing the connectors out of sight. To access the connectors, users press down on the top of the enclosure. Pressing down releases a mechanical latch and the Hideaway HSA 400 slowly pivots into view, presenting the connectors at a 49° angle to the tabletop.

The HSA 400 offers one AC outlet, and two CAT 6 RJ-45 network/data/phone connectors on its faceplate. In addition to the AC outlet and RJ-45 connectors, the faceplate of the HSA 400 includes room for two double-space Extron AAP - Architectural Adapter Plates. These AAPs are available with hundreds of connector combinations to meet the needs of any application.

Additionally, the Hideaway HSA 400 can be optimized with the unique Extron RGB 580xi remote interface. The RGB 580xi is a universal, computer-video interface with audio and ADSP™ Advanced Digital Sync Processing.

Hideaway™ HSA 400

DESCRIPTION (CONTINUED)

The Hideaway HSA 400 includes an RJ-45 connection kit for each front panel RJ-45 jack. Inside the kit, there is one set of icons for labeling, one blank hole filler, and an assortment of colored bezels. This offers the option of labeling and color-coding the RJ-45 connectors as they pertain to their assigned function, or covering the connector when it is not needed. The Hideaway HSA 400 ships standard in black anodized and brushed aluminum finish.*

US, Australia, UK, Central Europe, Switzerland, France, Israel, and India power outlets are available.

*Polished aluminum finish and brushed brass finish are also available. These models are built to order and require a longer lead time. Call an Extron Customer Support Representative for more information.

Note: AAP - Architectural Adapter Plates are shown in the photos and diagrams above as examples only. AAPs are optional accessories for the HSA products and must be ordered separately.
